

## RDI-2XX

Racing GDI Injector  
Up to 20 MPa

### Description

RDI-2XX injector has been developed to meet the market requirements for a cost effective injector for high performance racing injection systems.

It is available in basic configuration or customized in spray shape and flow rate and can be selected in narrow precision classes.

Injectors available for normal or deep installation.

### Main Features

- Delivery pressure range 0.4 to 20 MPa
- Static flow range (@ 20 MPa) up to 24 g/s
- Spray pattern multihole
- Driver Peak & Hold 15 – 2.5 A

### Benefits

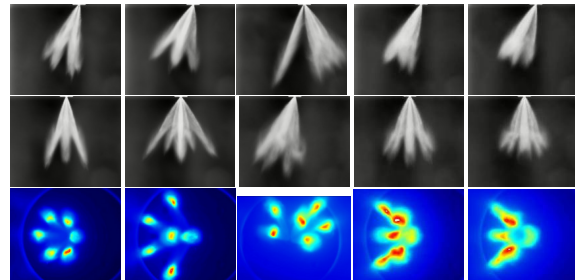

- High speed solenoid actuator
- Suitable for multiple injections
- World wide fuel compliance
- Short length for side mounting
- Possible central or deep assembling with extension
- Customizable spray pattern
- High precision
- Suitable for flex fuel (Ethanol)
- Small dimension & weight

### Typical Applications

In circuit and rallies application

### Typical Performance

# INJECTORS

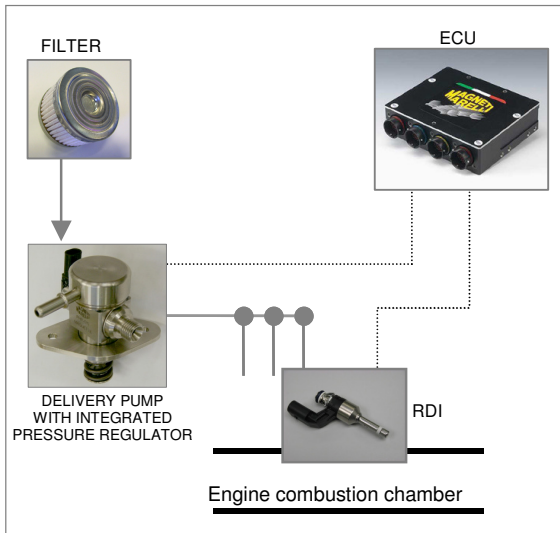

## RDI-2XX

Racing GDI Injector  
Up to 20 MPa

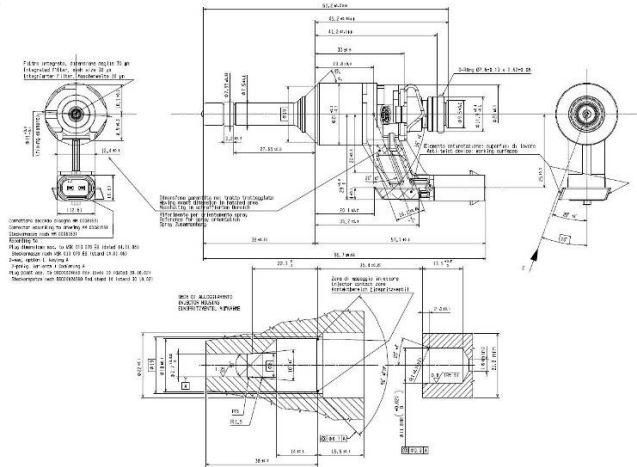

### Technical Characteristics

Delivery pressure range .....	0.4 to 20	MPa
Resistance .....	1.9	$\Omega$
Inductance.....	1.8	mH
Static flow range (@ 20 MPa).....	up to 24	g/s
Driver current .....	15 - 2.5	A
Spray angle.....	ask for details	
Post injection.....	Bouncing free	
Power supply.....	12	V
Operating temperature range .....	-20 to 120	$^{\circ}\text{C}$
Connector type.....	flying or MLK	
Weight.....	80	g

### Application Schematics

### Dimensions

Dimensions in millimetres

### RDI Family

For more information regarding the spray shape, please contact us.
